

CAPITILE

POE SPEAKS WITH JIM AND PHIL FOR CAPITILE (NY)

POE Who is Capitle? Current and past line-ups and why is there such a band?

CAP Jim vocals, Phil bass, Chris guitar, Christian drums- past 3 drummers Mike, Ross, Tom R. and Tom M. on guitar.

POE Why is the band breaking up?

CAP No time to train a 5th drummer. Also we've been playing as Capitle since Nov. 1981

POE Will the members be active elsewhere in bands, what will they be doing?

CAP Some are still playing/jamming with other un-employed musicians in Albany. Jim is doing nothing. Phil sings chants as a reggae DJ "Whiteman". Chris Sayer- guitar plays occasionally. Polk acoustic guitar in cafes and bars. Christian (drums) also plays with 2 other local bands- Joy Pop- Delmar Variety.

POE What does Capitle have recorded?

CAP Cuts on 2 different compilation albums from Albany. Also Error 11 song cassette and just released "More Thoughts" 12 song cassette studio and live.

POE What was the best thing that ever happened to the band? The worst?

CAP The best was that the Verge broke up. Reason being that they wanted to continue playing so they started out as original members of Capitle.

Worst; we never found a drummer who was both

satisfied with being in the band and who we were satisfied with.

POE If you had a choice what would you have done different as a band?

CAP Used a drum computer from day 1!

POE You had shirts for sale at one time, what happened with them?

CAP Details of the contest to be disclosed shortly!! (We were tripped up by the guy making them for us. We have found another source and they are great! There will be an ad in a future MRR and everyone who ordered one will get one, plus coupons!!)

POE Anything else you'd like to comment about...

CAP We are in the process of putting out the 2nd tape. It will contain 7 studio recordings done around the first of Jan '85. They were done with the current line-up. We also have a full length
